List Price: \$ 19.99

Format: Hard Cover

Publication Date: October 2019

ISBN: 978-1951486006

Reviewer: **Sunil Kumar Suvvari**

Review Date: February 2026

Introduction

Mommy Is a Project Manager by Mei Y Lin is a sweet and thoughtful children's book. It shows what a project manager does, but in a way kids can understand. The sentences are short. The ideas are simple. Through everyday moments, we see that mommy works hard, wears many hats, and solves big problems. But most of all, she loves her child.

Overview of Book's Structure

The book follows a simple and easy pattern. Each page introduces one project management idea, like managing tasks or handling risks. Then it connects that idea to something a child understands, like toys, playtime, or bedtime.

The story moves smoothly between mommy's work life and home life. One page shows her leading projects. The next shows her hugging, playing, or caring. This steady rhythm makes the book feel warm and balanced, not too serious, and never too technical.

Highlights

One of the best parts of this book is how it makes big work ideas feel small and easy. Things like risks, budgets, and planning are shown in fun, everyday moments. It feels

light and sweet. And through it all, you clearly see that mommy can be strong at work and still full of love at home.

Highlights: What I liked!

I loved how creative and heartfelt this book feels. It made me smile. The way it connects project management to everyday family life is clever but still simple. Most of all, I liked how it celebrates strong, hardworking moms without losing the warmth and love.

Who might benefit from the Book

This book is perfect for working moms, especially those in project management or leadership roles. It's also great for families who want children to understand what their parents do at work.

Conclusion

In the end, this book feels warm and real. It gently shows that a mom can lead meetings, solve problems, and manage big projects and still come home with love and hugs to give. It's simple, heartfelt, and meaningful. A lovely reminder that being strong and being caring can beautifully exist together.
